

Situated in Rae Municipality, Aaviku Village, Kivi Farm started its operation in 2002. We provide facilities for rent. Only 15 km from the city centre of Tallinn, our location is still private and peaceful.

We offer campsites for tourists travelling by car, motorcycle, or motorhome. Our campsites are equipped with all required amenities.

We also provide facilities for indoor events for up to 50 people and outdoor events for an even bigger crowd. This is a great place for seminars for business operators who live at a fast pace and want to escape the everyday environment with their staff without having the time to go very far. A nice and peaceful place also for anniversary celebrations. For more information about our services, don't hesitate to send us a message on FB or e-mail us at info@kivitalupuhkus.ee.
